

EVATIK May 2018 releases.

April 2018

Top quality materials, fine designs and unique finishes are showcased in the summer EVATIK collection.

Combining the latest eyewear and fashion trends with contemporary, masculine color options, the new styles allow the metropolitan man to find the perfect balance between comfort and luxury through a clean, timeless styling that is uniquely EVATIK.

With a flat metal front, a sophisticated matte finish and contrasting colorations of brown forest, black red and grey cobalt, style **E-9169** oozes luxury feel.

Temples are etched with a fine herringbone pattern for a textured dimensional chic look.

Inspired by the natural materials trend, style **E-9170** showcases a unique horn patterned acetate that features contrasting finishes.

The woodgrain finish on the top front of the frame and the temples accentuates the high gloss finish on the bottom front. Featured in the new campaign, this large fit frame is available in color combinations of olive wood, brown wood and black wood.
