## Mix It Up

**20/20 INSIGHT:** Let's forget the days when frames were strictly made out of either acetate or metal. Now it's time to add a bit of flair to styles with the addition of interesting and eye-catching materials. Whether its titanium, leather, wood or crystals, frames with mixed materials are perfect for those searching for an extra pop of color or sparkle.

—Victoria Garcia

### **EVATIK 9170** WestGroupe

Available in various color combinations, this large fit frame showcases a unique horn patterned acetate that features a woodgrain finish on the top front of the frame and is inspired by natural materials.
