High end materials and architectural design elements are showcased in the new **EVATIK** releases. Combining masculine styling with subtle pops of color, the new styles provide uncompromising comfort with luxury appeal.

E-9179

Playful mix of geometric patterns in a chromatic sequence of color adds a 3D element to **E-9179**. The frame features a cross hatch pattern that seamlessly forms into a herringbone sequence on the temples.

E-9180

E-9180 is a rectangular shape frame with patterned acetate, mixed with double cubed metal end caps on the temples.
